THE VALUE OF A DEGREE

Deciding to go to college is an investment in your future -- and in West Virginia's future. And with West Virginia's changing economy, it is predicted that by 2020, more than half of all jobs in the state will require a postsecondary credential.¹

TYPES OF INSTITUTIONS

Part of the college experience is figuring out the right college pathway for you. Below is an explanation of some of the most common forms of college:

Public two-year colleges: Offer two-year associate degree programs in a wide variety of areas as well as certificate programs that can usually be completed in six - 18 months.

Public four-year colleges: Offer bachelor's degree programs that usually take four years to complete; many offer master's and doctoral degree programs.

Private, non-profit schools: Offer a wide variety of degrees and programs; tuition and fees are usually higher than those at public colleges, but many offer large scholarships through donor funds.

Public career and technical education centers: Offer training to high school students, adults seeking high school equivalency or specialized licenses.
