

West Virginia's NEW PERKINS

Collaborative Reserve Grant

APPLY NOW

for federal grant funding
to support career pathway alignment.

For the first time ever, grants made possible by federal Perkins funds are being offered to support collaborations in CTE between K-12 schools and community and technical colleges.

The Perkins Collaborative Reserve Grant program will support projects that include at least one of the following priorities:

- ▶ Dual enrollment for students to explore and engage in college and careers;
- ▶ Work-based learning and skills in high-need workforce areas; and
- ▶ Industry-recognized credentials to align with business and industry standards.

ELIGIBILITY:

All grant proposals must represent a PARTNERSHIP between a secondary and post-secondary educational institution – specifically, a K-12 school and its regional community and technical college.

Available through an annual application process, the number of grants awarded and the level at which they are funded will be determined by the number of applicants and availability of funds.

TIMELINE:

Proposals must be submitted electronically through the Reserve Grant application. To apply, visit wvctcs.org/collaborative-reserve-grant.

Projects may begin as early as October 1, 2021, and must be completed by April 30, 2023.
